

**EPS-120/50**  
Splice press.

- Heating area	50x1250mm
- Dimensions (LxWxH)	1450x120x170mm
- Power consumption	1830W
- Electric power supply	1x230V
- Weight	35kg
- Compressed air supply	2.5 bar
- Belt thickness max.	12mm
- Minimum width	1200mm
- Minimum length belt with fiber glass	320mm
- Max. temperature	200°C
- Cooling media	Water
- Mean heating time at 175°	9 min
- Water cooling time from 175° to 60°	2 min
