

**EP-50**

Slice press 500mm.

**Technical data:**

- Heating area	160x550mm.
- Dimensions (LxWxH)	750x360x220mm.
- Upper part weight	17.3 Kg.
- Lower part weight	16.3 Kg.
- Steel plate and clamps weight	7.9 Kg.
- Total weight	41.5 Kg.
- Power consumption	2640 W.
- Electric power supply	1x230V.
- Frequency	50-60Hz.
- Maximum pressure	2.5 bar.
- Belt thickness max.	12 mm.
- Minimum length belt with steel plate	830mm.
- Minimum length belt without steel plate	620mm
- Max. temperature	200° C.
- Cooling media	Water and air.
- Mean heating time at 175°	9 min.
- Water cooling time from 175° to 60°	1.8 min.
- Air cooling time from 175° to 80	5 min.
- Current	10.8 amp - 1x230 V

### Standard Delivery

- Control box CB-01
- Top and bottom plates
- Steel plate with clamps
- Rapid connector and tubes for compressed air
- Rapid connector for water tubes
- Bottom silicone cloth
- Top silicone cloth
- Fiber glass sheet

### Required accessories for mobile use

- Mini-compressor CMP-01 (1x230V)

- Water pump WP-EP (1x230V)

- Air blower AB-EP (1x230V)

- Possibility to use both cooling device (air blower or water pump) in presses up to 1500mm.
